# Optimal Driving Clear Vision

Replace Your Value Advantage® Wiper Blades

15,000  
miles

Some dealerships set customer expectations by recommending wiper replacement every 15,000 miles\*

## OUR BENEFITS

**Wiper performance** deteriorates over time. Sunlight, rain, smog, and extreme temperatures accelerate wear. Many drivers wait until their wipers fail, compromising safety and relying on generic replacements.

With Nissan Value Advantage® Wiper Blades, customers get certified, reliable replacement parts designed to deliver **optimal performance, clear vision, and peace of mind.**

## VALUE TIPS

### Practical Advice for Wiper Blades Care

1. Replace wipers at least once a year; experts recommend every six months.\*
2. Some dealerships set customer expectations by recommending wiper replacement every 15,000 miles.\*
3. Look for signs of wear: streaking, chattering, loss of contact, or noise during operation.
4. Clean blades regularly with a damp cloth and mild detergent to extend service life.
5. Have wiper performance inspected at every service appointment.
6. Switching from conventional to hybrid Value Advantage® wipers can enhance performance and add a modern touch to vehicle appearance.

VALUE  
ADVANTAGE®

## OUR FEATURES

- Our line includes a full range of wiper blades: **conventional, hybrid, premium beam, and winter beam**, designed to meet different driving conditions and preferences
- Enhanced beam wiper blade design with easy-to-install connection system
- Designed to deliver durability and performance for a clear view, the wiper's function is to clear liquids from the windshield, removing dirt, snow, and water to help maintain clear driving
- **Certified by Nissan engineers:** Value Advantage® blades meet FMVSS (Federal Motor Vehicle Safety Standards)
- **LIMITED WARRANTY:** 12 Months/12,000 Miles (whichever occurs first)\*

Rigorously tested for:

- Lifecycle durability
- Judder (vibration) resistance
- Reversing performance
- Corrosion (360 hours)
- Ultraviolet exposure
- Thermal testing (-40° to +172° F)
- Frozen pull (-30° F)
- Load/pressure distribution
- High-speed wiping performance

Wipers wear out over time, and environmental factors accelerate their decline. Sunlight, extreme heat, cold, and pollution cause faster deterioration.
