Value Tips

- Clean the ETB Regularly
Keep the ETB free of dirt and debris to ensure optimal throttle response
- Check Connections
When replacing the ETB, check the intake boot and vacuum hoses for cracks
- Avoid Exceeding RPM Range
Keep the engine within an appropriate RPM range to avoid unnecessary strain on the ETB
- Regular Inspections
Check the Air Filter and replace it with a VALUE ADVANTAGE® Air Filter for optimal performance if necessary

Our ETBs benefits

Certified INFINITI Original Equipment
INFINITI expert engineers conduct rigorous inspections and quality tests on each component to help optimal operation

Reliable Performance

Designed to provide quick and efficient throttle response, matching the performance of a brand-new ETB

Affordable Pricing

The remanufacturing process allows for cost savings compared to a completely new part, without compromising quality standards

New or remanufactured?

Quality & Reliability

Remanufactured ETBs are rebuilt using original specifications, often with updates for enhanced performance and reliability

Helping to Lower Resource Consumption

Remanufactured options tend to be more affordable than new ETBs, making them a great choice for budget-conscious customers

Compatibility

Designed to fit specific vehicle models accurately, similar to new ETBs
