New Reman ETBs now available for Q1

The ETBs program continues to grow by offering the following new applications.

Features/Benefits:

- Manufactured using OE approved components and procedures
- Computerized testing of motor, throttle position sensor and articulation
- Nissan expert engineers conduct rigorous inspections and quality tests on each component to help optimal operation
- Every component is inspected, remanufactured or replaced for a durable high-quality product
- Cleaning process helps prevent the throttle bore surface from being damaged and ensures optimum airflow
- STANDARD WARRANTY:
12 Months/12,000 Miles (whichever occurs first)

Vehicle Applications:
