## NISSAN VALUE ADVANTAGE®

Attention: Nissan Dealer Principals, Executive Managers, Parts & Service Managers, Service Advisors

### Subject: New VALUE ADVANTAGE Oil Filter Price!

#### Current price

Type	PN	Dealer Net	MSRP
VA	A5208-65F1PNW	\$5.40	\$9.00

#### New price Starting on September 1<sup>st</sup>.

Type	PN	Dealer Net	MSRP
VA	A5208-65F1PNW	\$4.65	\$7.75

#### OE Oil filter price"

Type	PN	Dealer Net	MSRP
OE	15208-65F1B	\$5.40	\$9.00
OE	15208-65F1A	\$5.40	\$9.00

**Important:** The new VALUE ADVANTAGE® Oil Filter (A5208-65F1PNW) is the only allowed option for replacing the OE part numbers 15208-65F1B and 15208-65F1A.

Part Number 15208-65F0E is not a valid option.

**Why cannot part number 15208-65F0E replace 15208-65F1B / 15208-65F1A?**

➔ **Part number: 15208-65F1B / 15208-65F1A**

Designated mostly for turbo engines.

Relief valve opening pressure of 250 kPa. That way oil is forced to go through the filtration element even if some contaminants are already accumulated in the filter. This setup helps to ensure oil feed to both the turbo and the bearings.

➔ **Part number: 15208-65F0E**

Designated mostly for engines that operate at a lower oil pressure.

Relief valve opening pressure of 98 kPa.

Using this filter for the wrong applications like turbo engines may cause premature wear of the engine, bearings, and turbos. Due to the lower relieve valve opening pressure, unfiltered oil can circulate in the engine when the contaminants reach the lower pressure threshold.

**Applicability for:**

VEHICLE	MODEL CODE	START	END	OE PART NUMBER	VALUE ADVANTAGE PART NUMBER
ALTIMA	L34	08/18	CURRENT	15208-65F1B	A5208-65F1PNW
